The Vision Sciences Society is committed to progress in understanding vision and its relation to cognition, action and the brain. Our primary goal is to host a yearly meeting where both new and established investigators can present and discuss their work in a relaxed informal setting. Our interdisciplinary nature is reflected by the program committee and review board.

VSS will celebrate its seventh year at the beautiful TradeWinds Island Resorts in St. Pete Beach, Florida. The City of St. Pete Beach is a barrier island community located off the mainland of St. Petersburg, just south of Treasure Island and 20 miles from Clearwater Beach. With miles of pristine, white sandy beaches, year-round sunshine, and an abundance of recreational opportunities, restaurants, and shopping, St. Pete Beach is among the most enjoyable places to live and vacation in the world. A short 15 minute drive away, the city of St. Petersburg boasts world class museums, including the Salvador Dali Museum.

Expect to see more than 2,000 VSS national and international researchers and professionals – mostly VSS Society members – representing all fields related to vision science. This six-day program of speakers, panels, posters, and exhibits addresses various aspects of vision science education and research.

In addition, 2020 marks the Society’s 20th anniversary, and we are looking forward to hosting many special events!

Your company is invited to exhibit at the twentieth Annual VSS Meeting, May 15-20, 2020, at the TradeWinds Island Resorts in St. Pete Beach, Florida. See the Exhibitor Information page for exhibit rates and details.

Your company is invited to advertise in the meeting program and distribute product flyers in the attendee meeting packet. See the Advertising Information page for advertising rates.
